SUMMARY

Strong understanding of SDLC, STLC, and Agile methodologies with hands-on experience in manual testing, system validation, database verification, and performance evaluation. Skilled in identifying defects, writing structured test cases, and ensuring software reliability across web and mobile applications.

EDUCATION

BSc (Hons) Computer Science (Undergraduate)

2023 – Present

General Sir John Kotelawala Defence University

PROJECTS

Final Year Research Project – Computational Modeling System

Present

Testing and validating a machine learning system that analyzes gameplay behavior.

Key QA contributions: Data validation, performance testing, defect identification.

Personalized Workout Planner

2025

Tested workout navigation, GIF tutorials, and exercise flows across multiple devices and browsers. Validated UI responsiveness and handled edge cases such as missing media and slow network rendering.

QA: Functional testing, UI/UX validation, responsiveness testing.

Figma Link: [View Project](#)

Smart Face Recognition Attendance System with Emotion Detection

2025

Validated facial recognition under different lighting and multi-face conditions. Tested emotion detection accuracy and verified SQLite attendance records and CSV export functionality.

QA: Functional testing, database validation, UI testing.

Multi-Agent System (Bookstore Simulation)

2025

Tested autonomous agent workflows for purchasing, inventory restocking, and sales tracking. Verified monitoring interface performance and data accuracy during concurrent activity.

QA: Scenario testing, workflow validation, reliability testing.

To-Do List Mobile Application

2025

Designed and executed test cases for task management features. Verified cloud backup/restore, search functionality, and usability across Android devices.

QA: Test case design, functional testing, usability testing.

Computer Store Management System with AI Chatbot

2024

Tested customer portal workflows and chatbot responses for text and voice queries. Verified role-based access controls and database consistency.

QA: End-to-end testing, chatbot validation, regression testing.

Inventory Management System with DSA (Java)

2024

Validated sorting algorithms and inventory operations across different datasets. Tested backup/restore processes and role-based access controls.

QA: Algorithm testing, boundary testing, access control testing.

OTHER EXPERIENCES

Event Coordinator – DADS Entertainment (PVT) Ltd.

2023 – Present

Proven experience in organizing music events, content writing and overseeing ticketing operations with accuracy and efficiency. Strong skills in event planning, logistics coordination, and on-ground execution. Well-versed in managing ticket sales, budgeting, and liaising with vendors to ensure seamless and successful event delivery.

SKILLS

Quality Assurance

Manual Testing, Test Case Design, Bug Reporting, SDLC, STLC, Agile, Functional Testing, Regression Testing, Usability Testing

Database Testing

SQL Queries, Data Validation, Basic Database Verification

Tools

MS Office, Excel

Technical Skills

Python, C++, SQL, HTML, CSS, JavaScript, Canva

Personal Skills

Time Management, Leadership, Effective Communication, Critical Thinking, Teamwork

CERTIFICATIONS

Online Learning Program in Python – University of Moratuwa	2024
Introduction to Packet Tracer – Cisco Networking Academy - View Certificate	2023
Introduction to Networks – Cisco Networking Academy - View Certificate	2023

VOLUNTEERING

Editor – Rotaract Club of KDU	2025 – 2026
Public Relations Director – BCS Student Chapter of KDU	2025 – 2026
Secretary Team – BCS Student Chapter	2024
Secretary Team – IEEE Student Branch of KDU	2023 – 2024
Secretary Team – IEEE Computer Society of KDU	2023 – 2024
Professional Development Director – Rotaract Club of KDU	2023 – 2024
